Re: Hardwood floor project

Date: February 7, 2017

My husband and I are very pleased with the service that Eareckson Flooring provided. We weren't sure what to expect with refinishing our 100+ year-old floors, but wow, what a difference! The finished job is gleaming and really shows off the decorative inlay. The repair of the old radiator holes was well done and maintained the character of the floor.

We have used Eareckson for hardwood floor projects at additional locations, and as always, you and your guys were professional and got the job done as promised. We will continue to call on your company in the future.

Thank you!

BRL
