

The John K. Eareckson & Co. flooring company has performed solid and quick flooring work in my home. I have an old building in the Mt. Vernon section of Baltimore. I first had them sand, seal/varnish a studio unit with Georgia pine floors. I contacted Eareckson and two other flooring contractors. The representative was the first one to contact me and show up. They gave me quote on the spot. I then had to wait a day or two for the other two contractor's quotes to come in. Eareckson beat them both and started work the next day. They did an excellent job. I called them a month or so later for a job to sand, seal and varnish a basement floor, but also, rip-out, support and patch an 8 X 8 section of flooring. Again, their price was the best offer and value. The work was completed quickly and to my satisfaction. I'll use them again.
